CHAINSaws

The No. 1 selling brand of Chainsaws.

STIHL is the best-selling petrol chainsaw brand in the world and for a very good reason our chainsaws prove their worth every single day whether used in parks, public areas or in your own garden. We provide you with a wide range of saws for any application. All of them combine reliable STIHL quality, sophisticated technology & comfortable features, so that your work is as easy as it can be and your STIHL chainsaw will remain a pleasure to work with for many years to come. STIHL chainsaws combine innovative technology with high power, optimum ergonomic design and low weight.

Petrol Operated

MS 170

- Displacement - 30.1cm³
- Power output - 1.3kW/1.8hp
- Weight - 3.9kg*

Entry level model for cutting fire wood. Easy to operate. Light weight chain saw with proven German Technology.

MS 180

- Displacement - 31.8cm³
- Power output - 1.5kW/2.0hp
- Weight - 3.9kg*

Entry level model for cutting fire wood. Easy to operate. Light weight chain saw with proven German Technology.

MS 194 T

- Displacement - 31.8cm³
- Power output - 1.4kW/1.9hp
- Weight - 3.3kg*

The lightest STIHL arborist saw. Extremely precise handling. Low kick-back start-up thanks to micro-processor-based ignition and optimal ergonomics.

MS 210

- Displacement - 35.2cm³
- Power output - 1.6kW/2.2hp
- Weight - 4.4kg*

Excellent power-to-weight ratio. Ideal for cutting firewood and for building with wood. Also suitable for tree maintenance and for felling small trees.

MS 230

- Displacement - 40.2cm³
- Power output - 2.0kW/2.7hp
- Weight - 4.6kg*

Excellent power-to-weight ratio. Ideal for cutting firewood and for building with wood. Also suitable for tree maintenance and for felling small trees.

MS 250

- Displacement - 45.4cm³
- Power output - 2.3kW/3.1hp
- Weight - 4.6kg*

Exemplary power-to-weight ratio. Highly suitable for building with wood and for felling small trees. Suitable for cutting firewood.

MS 260

- Displacement - 50.2cm³
- Power output - 2.6kW/3.5hp
- Weight - 4.8kg*

All-purpose, suitable for agriculture work, garden cultivation and cutting firewood.

MS 291

- Displacement - 55.5cm³
- Power output - 2.8kW/3.8hp
- Weight - 5.6kg*

Great for harvesting firewood, air-filter system with routing for a long filter-service life, tool-free fuel-cap for safe and easy refuelling.

MS 361

- Displacement - 59.0cm³
- Power output - 3.4kW/4.6hp
- Weight - 5.6kg*

Outstanding power-to-weight ratio, state-of-the-art technology and exceptional cutting speed and torque. Lowest vibrations levels in its class.

*Dry weight

MS 382

- Displacement - 72.2cm³
- Power output - 3.9kW/5.3hp
- Weight - 6.2kg*

Great performance, an excellent power-to-weight ratio and a classic design. Highly suitable for harvesting wood and cutting firewood

MS 462

- Displacement - 72.2cm³
- Power output - 4.4kW/6.0hp
- Weight - 6.0kg*

Very powerful saw. Extremely robust and hard-wearing. Highly recommended for the effective harvesting of big timber.

MS 651

- Displacement - 91.1cm³
- Power output - 5.0kW/6.8hp
- Weight - 7.4kg*

High-performance saw for demanding applications. Comes with anti-vibration system, HD2 filter, controlled-delivery high-performance oil pump and roller chain catcher as standard.

Petrol Operated

MS 661

- Displacement - 91.1cm³
- Power output - 5.4kW/7.3hp
- Weight - 7.4kg*

Very powerful saw. Extremely robust and hard-wearing. Highly recommended for the effective harvesting of big timber.

MS 880/ MS 881

- Displacement - 121.6cm³
- Power output - 6.4kW/8.7hp
- Weight - 9.8kg*

The MOST POWERFUL series-produced chainsaw in the world! High-cutting performance, engine power and efficient fuel usage, tool-free fuel caps for easy and safe refuelling with fuels and lubricants.

Easy to use, powerful and lightweight.

MSE 141

- Rated Voltage - 230V
- Power output - 1.4kW
- Weight - 3.6kg*

New, powerful electric saw with high cutting performance and excellent ergonomics for effortless use. Quick chain tensioning for safe & easy chain tensioning without tools, soft handle for comfortable working, quick stop super chain brake, tool-free tank cap for safe and easy filling with chain oil and overload protection.

MSE 170

- Rated Voltage - 230V
- Power output - 1.7kW
- Weight - 3.8kg*

Lightweight and convenient electric chainsaw for cutting firewood. Excellent ergonomics for effortless operation, QuickStop Super chain brake, soft handle for good grip and comfortable working, tool-free oil tank cap, overload protection.

MSE 190

- Rated Voltage - 230V
- Power output - 1.9kW
- Weight - 3.8kg*

Outstanding for construction and cutting firewood. Excellent ergonomics for effortless working, QuickStop Super chain brake, the saw chain immediately comes to a stop when releasing the rear handle, soft handle for a good grip and comfortable working and overload protection.

Electric Operated

Electric Operated

MSE 210

- Rated Voltage - 230V
- Power output - 2.1kW
- Weight - 4.0kg*

Powerful electric saw with high cutting performance and excellent ergonomics for effortless use. Quick Chain Tensioning for safe and easy chain tensioning without tools, soft handle for comfortable working, QuickStop Super chain brake, tool-less oil tank cap for safe and easy filling with chain oil, 10 m cable. Great for craftsmen, farmers and home owners.

MSE 230

- Rated Voltage - 230V
- Power output - 2.3kW
- Weight - 4.1kg*

High-performance electric chain saw for building with wood. STIHL Quick Chain Tensioning for quick and easy chain tensioning without tools, QuickStop Super chain brake, which stops the saw chain in seconds when releasing the rear handle, soft handle for comfortable working, LED overload indicator.

MSE 250

- Rated Voltage - 230V
- Power output - 2.5kW
- Weight - 4.6kg*

Very powerful electric chain saw for demanding tasks when building with wood. High cutting performance, side-mounted chain tensioning, fully electronic engine function control, soft grip for comfortable working, QuickStop Super chain brake, LED overload indicator.

Battery Operated

MSA 60C

- Battery - AK20
- Running Time - Up to 40min
- Weight - 2.3kg*

Lightweight cordless chainsaw, with the added benefit of being quieter without lacking the power of the petrol versions. Perfect for gardening enthusiasts and arborists with the ability to cut firewood and logs.

MSA 70C

- Battery - AK20
- Running Time - Up to 50min
- Weight - 2.7kg*

Powerful and lightweight chainsaw that is ideal for managing gardens and logging fire wood. This chainsaw will make light work of any task while giving you the benefit of low noise and high power.

MSA 160

- Battery - AP300
- Running Time - Up to 50min
- Weight - 2.7kg*

Cordless chain saw for use in noise-sensitive areas, no ear protection necessary. STIHL Quick Chain Tensioning, QuickStop Super chain brake, tool-free fuel cap and good cutting performance.

MSA 200

- Battery - AP300
- Running Time - Up to 45min
- Weight - 2.9kg*

Cordless chainsaw with greater torque and cutting capacity. The specially developed STIHL 1/4" PM3 saw chain achieves outstanding cutting power and smooth running behavior. Without battery and charger.

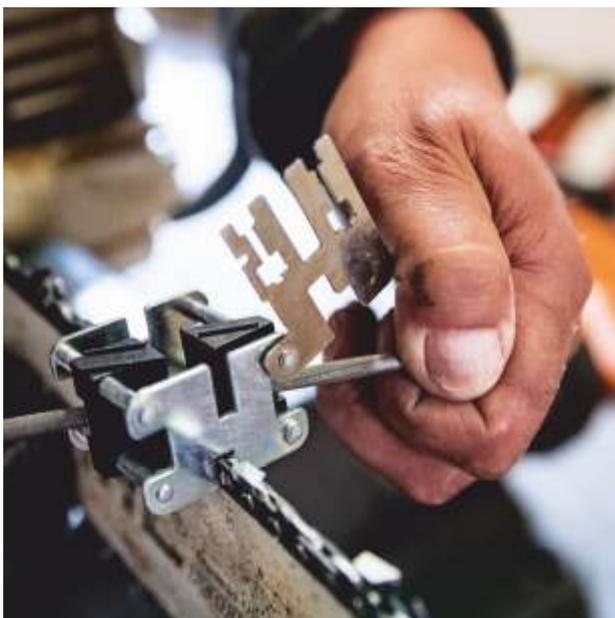

*Weight excluding battery, including guide bar and saw chain

CUTTING ATTACHMENTS

All Saw Chains are
Made in Switzerland

SAW CHAINS

Maximum cutting performance and precision.

Choosing the right saw chain is a crucial factor for working efficiently with a chainsaw, which is why STIHL offers the perfect saw chains for every need, performance class and chainsaw make. All chains boast robust, premium quality. STIHL saw chains are manufactured with precision Swiss workmanship.

PICCO MICRO

For all users, from professional to occasional, chain that offers a balance of reduced kickback tendency, comfort and cutting performance

- Low profile semi-chisel chain
- High cutting capacity
- Low vibration

Technical Specification

Saw Chain Type	Saw Chain Description	Pitch	Drive link Gauge
3636	63 PM3	3/8 Picco	1.3 mm
3614	63 PMX	3/8 Picco	1.3 mm
3615	63 PMY	3/8 Picco	1.3 mm
3617	63 PS3	3/8 Picco	1.3 mm

PICCO SUPER (PS)

For Professional, forestry & agriculture users

- Higher cutting and boring capacity
- Excellent start-of-cut behavior
- Low vibrations - smooth cut and very clean surface
- Small hemispherical dimples in both sides of the drive links collect and transport oil around the bar for improved chain lubrication

Technical Specification

Saw Chain Type	Saw Chain Description	Pitch	Drive link Gauge
3669	63 PM3	3/8 Picco	1.3 mm

PICCO MICRO MINI (PMM3)

All users who attach particular importance to a high level of comfort and a reduced kickback tendency combined with good cutting performance

- Semi-chisel chain with narrow cutting and low profile
- High cutting and boring capacity

Technical Specification

Saw Chain Type	Saw Chain Description	Pitch	Drive link Gauge
3610	61 PMM3	3/8 Picco	1.1 mm
3670	61 PM3	1/4 Picco	1.1 mm

RAPID MICRO

All users, from professional to occasional, who attach equal importance to comfort and cutting performance

- Semi-Chisel saw chain
- High cutting capacity
- Low vibration

Technical Specification

Saw Chain Type	Saw Chain Description	Pitch	Drive link Gauge
3686	26 RMC	0.325	1.6 mm
3653	36 RMX	3/8	1.6 mm
3652	36 RM	3/8	1.6 mm
3692	35 RMX	3/8	1.5 mm
3691	33 RMX	3/8	1.3 mm
3838	45 RMX	0.404	1.6 mm

RAPID SUPER

For Professional users, especially in forestry industry

- Full chisel saw chain
- Optimized cutting capacity
- Excellent plunge-cutting performance
- Exceptionally low effort

Technical Specification

Saw Chain Type	Saw Chain Description	Pitch	Drive link Gauge
3621	36 RSC	3/8	1.6 mm
3638	25 RSC	0.325	1.5 mm
3946	46 RS	0.404	1.6 mm
3622	35 RS	3/8	1.5 mm
3874	33 RS	3/8	1.3 mm

GUIDE BARS

Light and tough.

- Suitable for variety of tasks from harvesting wood to cutting firewood
- Made from high quality and highly resistant chrome steel
- Optimal conversion of engine power to cutting performance

ROLLOMATIC GUIDE BARS

All STIHL Rollomatic guidebars are equipped with a nose sprocket which carries the saw chain from one side of the bar to the other. There are two versions of Rollomatic bars to suit different requirements with integrated nose sprocket.

Rollomatic standard with integrated nose sprocket

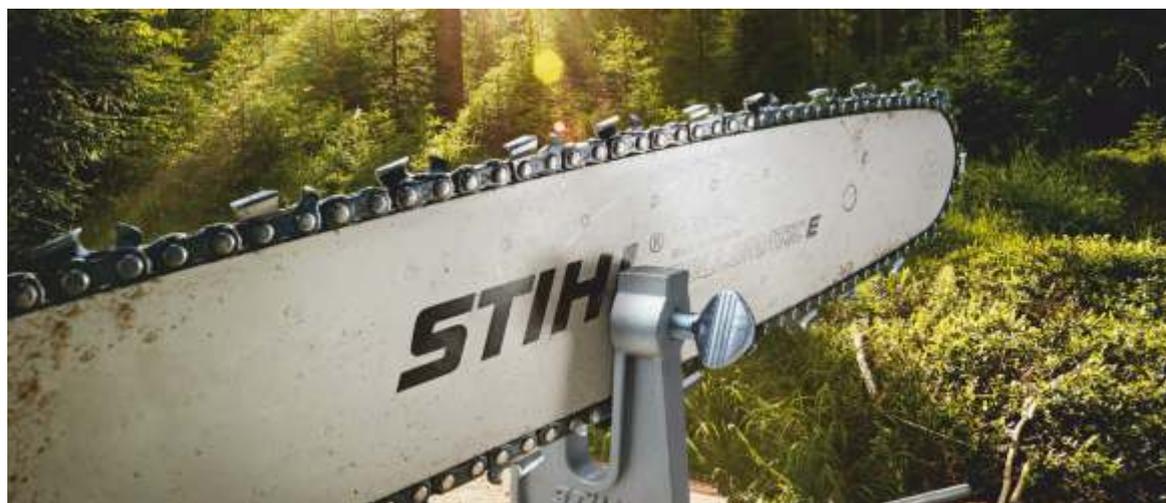

Rollomatic E with replaceable bar nose sprocket

DUROMATIC GUIDE BARS

Solid-Blade Duromatic bars with stellite tipped nose are under the "DUROMATIC" name. Duro (from "Durus" meaning hard) denotes that this guide bar is spring hard and extremely wear resistant. It is very resilient and insensitive to flexing stresses. The bar rails are induction hardened and the highly stressed bar nose are armor-plated with stellite.

BRUSHCUTTERS

Tame long grass with ease.

The brushcutters from STIHL are true specialists. They get to work where ride-on lawnmowers give up. Whether doing mowing and clearing jobs at home, thinning overgrown areas or carrying out tough maintenance work on steep slopes – with their high-performance engines and sophisticated practical features, these powerful experts are equal to any challenge. Choose the right tool from the various models depending on your particular requirements. Fit it with the appropriate cutting attachment – and you're ready to go.

Petrol Operated

FS 55

- Displacement - 27.2cm³
- Power output - 0.75kW/0.9hp
- Weight - 5.0kg*

For comfortable operation where space is limited.

FS 3001

- Displacement - 25.4cm³
- Power output - 0.97kW/1.3hp
- Weight - 5.6kg*

Compact and robust brushcutter for multi-functional use in agriculture.

FS 120 / KA 120

- Displacement - 30.8cm³
- Power output - 1.3kW/1.8hp
- Weight - 6.3kg*

For working on large areas and tough grass.

FS 230

- Displacement - 40.2cm³
- Power output - 1.55kW/2.1hp
- Weight - 7.5kg*

Robust and powerful clearing saw for mowing.

FS 230 With Cruise Control

- Displacement - 40.2cm³
- Power output - 1.55kW/2.1hp
- Weight - 7.1kg*

New with cruise control function, ergonomic bike handle and multi-function control grip.

FS 250 / KA 250

- Displacement - 40.2cm³
- Power output - 1.6kW/2.2hp
- Weight - 6.3kg*

For tough, large-scale mowing work.

FS 350

- Displacement - 40.2cm³
- Power output - 1.6kW/2.2hp
- Weight - 7.3kg*

For mowing tough grass, shrub and small stems.

FS 380

- Displacement - 40.2cm³
- Power output - 2.0kW/2.7hp
- Weight - 7.3kg*

For mowing tough grass, shrub and small stems.

FS 410

- Displacement - 40.2cm³
- Power output - 1.9kW/2.6hp
- Weight - 8.0kg*

For mowing tough grass, shrub and small stems.

FS 460

- Displacement - 44.3cm³
- Power output - 2.1kW/2.9hp
- Weight - 8.0kg*

STIHL's most advanced brushcutter, features STIHL M-Tronic engine management, ErgoStart and 4 point anti-vibration system.

*Dry Weight

BACKPACK BRUSHCUTTERS AND TEA PRUNER

FR 3001

- Displacement - 30.5cm³
- Power output - 0.81kW/1.1hp
- Weight - 9.4kg*

For mowing work in areas that are difficult to access.

FR 230

- Displacement - 40.2cm³
- Power output - 1.55kW/2.1hp
- Weight - 10.1kg*

For mowing work in areas that are difficult to access.

FR 230 With Cruise Control

- Displacement - 40.2cm³
- Power output - 1.55kW/2.1hp
- Weight - 10.1kg*

For mowing work in areas that are difficult to access.

Petrol Operated

FT 250 (TEA PRUNER)

- Displacement - 40.2cm³
- Power output - 1.6kW/2.2hp
- Weight - 6.3kg*

For pruning tea bushes after the tea harvest.

Electric Operated

FSE 52

- Rated Voltage - 230V
- Power output - 500W
- Weight - 2.2kg*

For trimming and clearing jobs in the garden

FSE 81

- Rated Voltage - 230V
- Power output - 1000W
- Weight - 4.7kg*

Ideal for mowing smaller areas of uncontrolled growth.

Battery Operated

FSA 57

- Battery - AK 10
- Battery Capacity - 36V
- Battery Running Time - Up To 25 min
- Weight - 2.4kg*

Very lightweight and easy-to-use cordless brushcutter for maintaining lawns and lawn edges in outdoor areas around your home.

FSA 130

- Battery - AP 300 / AP 300S
- Battery Capacity - 36V
- Battery Running Time - Up To 70/100 min
- Weight - 4.5kg*

Powerful and lightweight cordless brushcutter for working on large areas of tough grass. Three adjustable power levels & comfortable bike handle.

*Dry Weight

CUTTING ATTACHMENTS

- Wide variety of cutting tools and mowing lines for different applications.
- Mowing lines made from wear-resistant and long-lasting flexible material.
- Mowing lines with different shapes, cross-sections and diameters.

2-Teeth Grass Cutting Blade

Auto Cut Mowing Head

Brush Knife

4-Teeth Grass Cutting Blade

Circular Saw Blade, Scratcher Tooth

Circular Saw Blade, Chisel Tooth

Circular Saw Blade

Shredder Knife

Nylon Trimmer lines

MULTI-TOOLS ATTACHMENTS

For various applications.

Like de-weeding, paddy weeding, soil recultivating and loosening, all types of grass & bush cutting, harvesting, etc.

Paddy Weeder Attachment

Paddy Harvester Attachment

Brush Knife

Pick Tines

Bolo Tines

Circular Saw Blade

Paddy Weeder Attachment

Auto Cut

POWER WEEDERS

Sturdy cultivator with impressive digging performance.

Mini-weeder or cultivator with impressive digging performance and high-quality features. Robust harness. Folding support frame. 250 mm rotating blades with long service life for optimal performance. Ergonomic handle design for effortless work. Handles protected against dirt when laying the tool down. It is designed for loosening and preparing soil, working in mulches and furrowing.

BC 230

- Displacement - 40.2cm³
- Power output - 1.55kW/2.1hp
- Weight - 20kg*
- Cultivation Width - 30cm
- Cultivation Depth - 75mm/3inch

*Without cutting tool

Robust tiller for heavy-duty use

The high-performance STIHL MH 610 is most suited to break up dense, solid ground and turning over large plots of land. Propelled by a powerful petrol engine, it effortlessly ploughs an 80 cm wide channel through the earth. The shape of the blades allow you to mix the earth with outstanding power and efficiency, cutting through old roots and plant material with ease and bringing them to the surface.

MH 610

- Displacement - 212cm³
- Max Power - 6.0hp
- Drive - Belt Drive
- Transmission - Forward 2/ Reverse 1
- Working Depth - 5inch
- Working Width - 78cm/2 1/2 ft
- Fuel Tank Capacity - 3.6L
- Dry Weight - 60kg

Powerful tiller for heavy soils

This machine makes extremely light work of even the most intensive and demanding ground work. While the extremely powerful engine turns over the soil and it benefit from a high degree of comfort when operating the rotary tiller. The drive with worm gear unit generates minimal vibrations during operation. Reinforced components guarantee an outstanding performance, even with the toughest jobs on the most challenging terrain.

MH 710

- Displacement - 252cm³
- Max Power - 7.0hp
- Drive - Gear Drive
- Transmission - Forward 2/ Reverse 1
- Working Depth - 6inch
- Working Width - 97cm/3ft
- Fuel Tank Capacity - 3.6L
- Dry Weight - 101kg

*Dry Weight

ACCESSORIES

RIDGER ADJUSTABLE

Application:

- Cutting the land, loosening the soil
- Opening furrows for water flow
- Making ridges for row crops such as sugarcane, potato, chillies, tobacco, banana etc.

PLOUGH

Application:

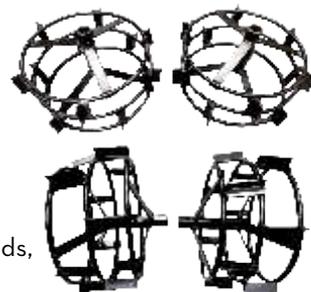

- Turn and break up soil
- Bury crop residues
- Cut & loosen the soil
- Help control weeds
- Bringing fresh nutrients to the surface

CAGE WHEEL

Application:

- Cage wheel is used for traction improvement in wet soil
- Provides a floating effect to the power tiller in wet paddy fields, in addition to puddling the soil

DEEP TINES

Application:

- Dry and hard soil tilling
- Deep rotary tilling etc

BRACKET (MH 610)

Application:

- Used to attach ridger, plough, potato digger etc.
- Specially designed for power weeder STIHL MH 610

PUDDLING WHEEL

Application:

- Tillage of rice paddies
- Turning the soil, prepare land for soil cultivation
- Puddling wheel also used for traction improvement in wet soil, provides a floating effect in wet paddy fields

WATER PUMPS

Impressive pumping capacity

STIHL water pumps are versatile tools designed for moving water from various reservoirs such as rivers, lakes, and ponds. They are suitable for use in agriculture, construction, and even private use. For water distribution and transportation. The STIHL WP range is equipped with powerful and robust engines for high performance, high pump capacity and high head. It is perfectly suitable for farmers. This range is ideal for large pumping volume such as conveyance of water from rivers, lakes, wells, and other reservoirs for irrigation or flooding of small and medium sized cultivation areas. It is also easy to operate and maintain. The standard filter cage protects the machine against intake of large particles and the high-quality clamps allow easy hose assembly.

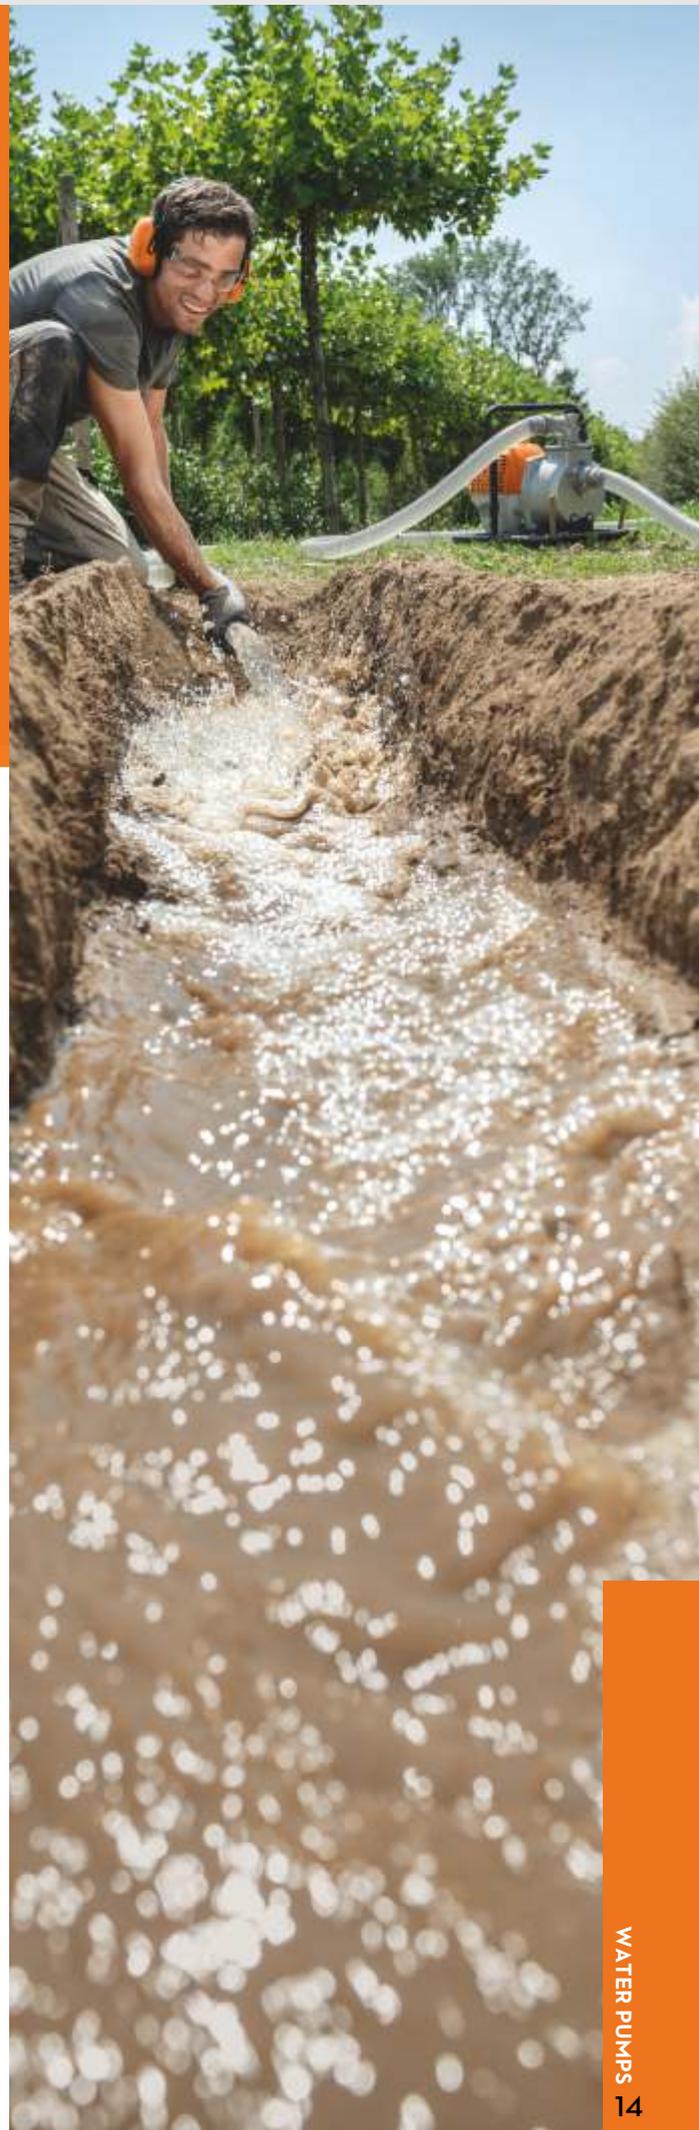

Petrol Operated

WP 230

- Displacement - 40.2cm³
- Weight - 11.3kg
- Power Output - 1.55kW/2.1hp
- Max. Suction Head - 8meter
- Max. Delivery Head - 27meter
- Max. Discharge - 250L/min

* Weight without attachments & fuel

*Dry Weight

HIGH POWER HEAD DISCHARGE

Petrol Operated

PUMP SIZE 2"

WP 300

- Displacement - 212cm³
 - Weight - 26kg*
 - Power Output - 4.4kW/6.0hp
 - Max. Suction Height - 7meter
 - Max. Pumping Height - 33meter
 - Max. Discharge - 616L/min
- * Weight without attachments & fuel

PUMP SIZE 3"

WP 600

- Displacement - 212cm³
 - Weight - 29kg*
 - Power Output - 4.4kW/6.0hp
 - Max. Suction Height - 7meter
 - Max. Pumping Height - 31meter
 - Max. Discharge - 1,050L/min
- * Weight without attachments & fuel

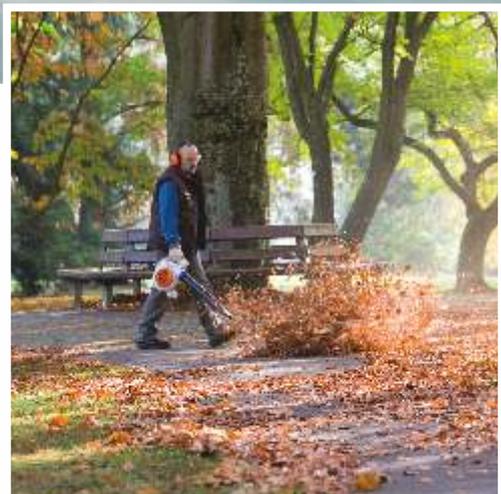

PUMP SIZE 4"

WP 900

- Displacement - 252cm³
 - Weight - 38kg*
 - Power Output - 5.2kW/7.0hp
 - Max. Suction Height - 7meter
 - Max. Pumping Height - 34meter
 - Max. Discharge - 1,567L/min
- * Weight without attachments & fuel

HANDHELD BLOWERS

Light handheld blowers.

STIHL high-performance blowers help you to forcefully eliminate wet layers of leaves and tackle clippings, small branches and grass. The blowers are ergonomically designed, easy to operate and a dream to start thanks to STIHL ergo start being a standard feature on all handheld blowers.

Petrol Operated

BG 50

- Displacement - 27.2cm³
- Weight - 3.6kg*
- Air Throughput - 700m³/h
- Max. Air Throughput - 730m³/h
- Air Speed - 71m/s

*Weight excluding fuel, fully assembled

BG 86

- Displacement - 27.2cm³
- Weight - 4.4kg*
- Air Throughput - 755m³/h
- Max. Air Throughput - 810m³/h
- Air Speed - 89m/s

*Weight excluding fuel, fully assembled

Electric Operated

BGE 81

- Rated Voltage - 230V

BACKPACK BLOWERS

Clearing large areas efficiently.

Backpack blowers are mainly used for effectively and efficiently clearing fallen leaves, grass, or waste paper from public areas or large private estates. All our models have a multi-function control handle and electronic ignition. Many accessories are also available to complement these products including curved and flat nozzles, hip belt, chest belt, and a bike handle.

Petrol Operated

BR 420

- Displacement - 56.5cm³
- Weight - 9.1kg
- Max. Air Throughput - 1,260m³/h

BR 550

- Displacement - 64.8cm³
- Weight - 9.9kg
- Max. Air Throughput - 1,490m³/h

BR 600

- Displacement - 64.8cm³
- Weight - 9.8kg
- Max. Air Throughput - 1,720m³/h

BR 800

- Displacement - 79.9cm³
- Weight - 11.7kg
- Max. Air Throughput - 2,025m³/h

MISTBLOWERS

Systematic crop protection.

Fruit, vegetables, or wine crops have much in common - a good harvest not only makes farmers and wine growers happy but also good connoisseurs. However, a good harvest is only made possible by hardwork large areas of land require special care in order to stay healthy and produce high yields. STIHL provides professional backpack mistblowers designed to be as comfortable as possible - from the STIHL anti-vibration system to the single-hand multi-function handle.

Petrol Operated

SR 420

- Displacement - 56.5cm³
- Weight - 11.1kg

SR 450

- Displacement - 63.3cm³
- Weight - 12.8kg

SR 5600

- Displacement - 56.5cm³
- Weight - 11.2kg

Easy Conversion into dusting and spraying

PORTABLE SPRAYER

Effectiveness with efficiency.

Portable sprayer with impressive power, long range, and high-quality features. Long spray range and high flow rate, robust harness, intake system with vacuum hose, return hose, and intake filter as standard.

Petrol Operated

SG 230

- Displacement - 40.2cm³
- Power Output - 1.55Kw/2.1hp
- Volume Max. Flow Rate - 12.2Ltr/min
- Working Pressure - 5-40bar
- Weight - 13kg*

* Weight without attachments & fuel

HIGH PRESSURE CLEANERS

A clean job, no matter how stubborn the dirt.

The powerful STIHL high pressure cleaners clean up dirt in no time. Robust technology and comfortable equipment make cleaning almost a pleasure.

RE 80X

- Max Pressure - 120bar
- Operating Pressure - 90bar
- Max Water Throughput - 430L/h
- Power Consumption - 1.7kW
- Weight - 7.0kg

RE 80

- Max Pressure - 120bar
- Operating Pressure - 90bar
- Max Water Throughput - 430L/h
- Power Consumption - 1.7kW
- Weight - 7.5kg

RE 90

- Max Pressure - 130bar

SWEEPING MACHINES

Very Clean, very fast.

Be prepared for the finest cleaning methods with STIHL sweeping machines. It is all about best cleaning for irregular or professional use. Clean your paths, car parks, driveways, indoors & outdoors the way you want to. Clear coarse, fine, heavy & wet debris. Find spotlessness with stihl multi clean & multi clean plus sweeping systems.

KG 770

- Sweep Width - 77cm
- Container Capacity - 50L
- Weight - 13kg*
- Areas Upto - 1500m²

For low-dust sweeping of large areas both indoors and outdoors.

Manually Operated

KGA 770

- Sweep Width - 77cm
- Container Capacity - 50L
- Weight - 16kg*
- Areas Upto - 2000m²

- Battery - Running Time
- AP 100 - Up to 70min
 - AP 200 - Up to 140min
 - AP 300 - Up to 210min

HEDGE TRIMMERS

Powerful, well-balanced trimmers that put the edge in hedge.

- Powerful tools with low weight and high cutting performance
- For use on large grounds
- Delivers the perfect cut for thick edges and ornamental trees

Petrol Operated

HS 45

- Displacement - 27.2cm³
- Power output - 0.75kW/1hp
- Weight - 4.7kg*
- Bar Length - 45cm/60cm

Light introductory model for garden trimming. With easy to start for comfortable starting.

HS 52

Soft Pruning in Tea Plantation

- Displacement - 27.2cm³
- Power output - 0.75kW/1hp
- Weight - 5kg*
- Bar Length R - 30cm/60cm

This extremely light and handy electric hedge trimmer is ideal for quiet trimming and cutting of hedges and bushes around the garden.

HS 82 R/T

- Displacement - 22.7cm³
- Power output - 0.75kW/1hp
- Weight - 4.9kg*
- Bar Length R - 60cm
- Bar Length T - 50cm/60cm

Professional tool with higher blade speed for a precise cut.

THE PERFECT CUT EVERY TIME

VARIANT - R

Variant R + Pruning

- Wider Tooth Spacing
- Larger Teeth
- Gear Transmission Ratio delivers high cutting power
- For large volume pruning and clearing heavier scrub on large tough edges

VARIANT - T

Variant T + Trimming

- Narrow Tooth Spacing
- Smaller Teeth
- Gear Transmission Ratio enables a higher stroke rate
- For perfect trimming and contouring

HSE 42

- Rated Voltage - 230V
- Power output - 420W
- Weight - 3kg*
- Bar Length - 45cm

This extremely light and handy electric hedge trimmer is ideal for quiet trimming and cutting of hedges and bushes around the garden.

Electric Operated

HSE 52

- Rated Voltage - 230V
- Power output - 460W
- Weight - 3.1kg*
- Bar Length - 50cm

This extremely light and handy electric hedge trimmer is ideal for quiet trimming and cutting of hedges and bushes around the garden.

HSE 71

- Rated Voltage - 230V
- Power output - 600W
- Weight - 4.1kg*
- Bar Length - 60cm/70cm

High-performance electric hedge trimmer with 2-stage reduction gear with low stroke rate and high torque for thicker branches.

HSE 81

- Rated Voltage - 230V
- Power output - 650W
- Weight - 4.1kg*
- Bar Length - 50cm/60cm/70cm

The top of the range electric hedge trimmer. High powered engine, 2-stage reduction gear with low stroke rate and high torque for thicker branches.

SHRUB SHEAR

LONG REACH HEDGE TRIMMERS

Petrol-driven, cordless, and electric models for professional landscape gardeners as well as intensive domestic users.

For particularly wide, high or long hedges right down to ground level, and shrubs around the outside of the home.

Petrol Operated

HL 94

- Displacement - 24.1cm³
- Power output - 0.9kW/1.2hp
- Weight - 6.1kg*
- Total length - 242cm

*Weight excluding battery

Battery Operated

HLA 86

- Battery - AP 300
- Energy Content - 227Wh
- Battery Running Time - Up To 180 min
- Weight - 4.8kg*
- Total Length - 260/330cm

*Weight excluding battery

POLE PRUNERS

Maintaining fruit trees and thinning woods is a much safer & more convenient job with a STIHL Pole Pruner, for the “chainsaw on a pole” makes it possible to cut branches without leaving the safety of the ground. Some models can cut branches up to 5 meters from the ground and others are ideal for jobs near residential buildings and in areas where noise is undesirable.

HT 75

- Displacement - 25.4cm³
- Power output - 0.95kW/1.3hp
- Weight - 6.6kg*
- Total length - 270-390cm
- Reach from ground - 500cm

*Dry Weight

Petrol Operated

HTA 66

- Battery - AP 300
- Running time - Up to 55min
- Weight - 3.3kg*
- Total length - 240cm
- Reach from ground - 320cm

*Weight excluding battery, including with cutting attachment

HTA 86

- Battery - AP 300
- Running time - Up to 55min
- Weight - 4.6kg*
- Total length - 270-390cm
- Reach from ground - 500cm

*Weight excluding battery, including with cutting attachment

Battery Operated

EARTH AUGERS

Ground Breaking Performances.

In agriculture, forestry, landscaping and gardening, the potential uses for STIHL Earth Augers are considerable. Whether you are drilling planting holes or taking soil samples, STIHL earth augers are sure to be professional, reliable and efficient. Operator comfort and safety is paramount, with selected machines equipped with QuickStop drill braking and remarkable advances in vibration damping.

Petrol Operated

BT 131

(Without Drill Tool)

- Displacement - 36.3cm³
- Weight - 10.0kg
- Power Output - 1.4kW/1.9hp
- Drill Dia - 40 to 300mm

*Weight excluding fuel & drilling tool

BT 230

(Without Drill Tool)

- Displacement - 40.2cm³
- Weight - 10.9kg
- Power Output - 1.55kW/2.1hp
- Drill Dia - 150/200/300mm

Max.Torque (Nm/RPM)- 1.9/6000

*Weight without drills

CONCRETE CUTTER

For wet cutting concrete, stone and masonry

The GS 461 is designed for free hand cutting in concrete with re-enforcing, natural stone, sewage pipes (concrete & ductile iron) and general masonry. The GS 461's maneuverability makes it perfect for cutting in tight spots or close up against a 90 degree corner. Suited to the professional user, the GS 461 is ideal for rental outlets, landscape gardeners and fire & rescue services.

GS 461

- Displacement - 76.5cm³
- Weight - 7.6kg
- Power Output - 4.3kW/5.8hp
- Cutting Depth - 15.7cm

*Weight exclude fuel, guide bars & diamond concrete cutter chain

Petrol Operated

RESCUE SAW

When every second counts, top performance is essential.

- For emergency operations and fire fighting
- Special saw chain with carbide alloy plating
- Tremendous performance in the medium rpm range

Petrol Operated

MS 462 R

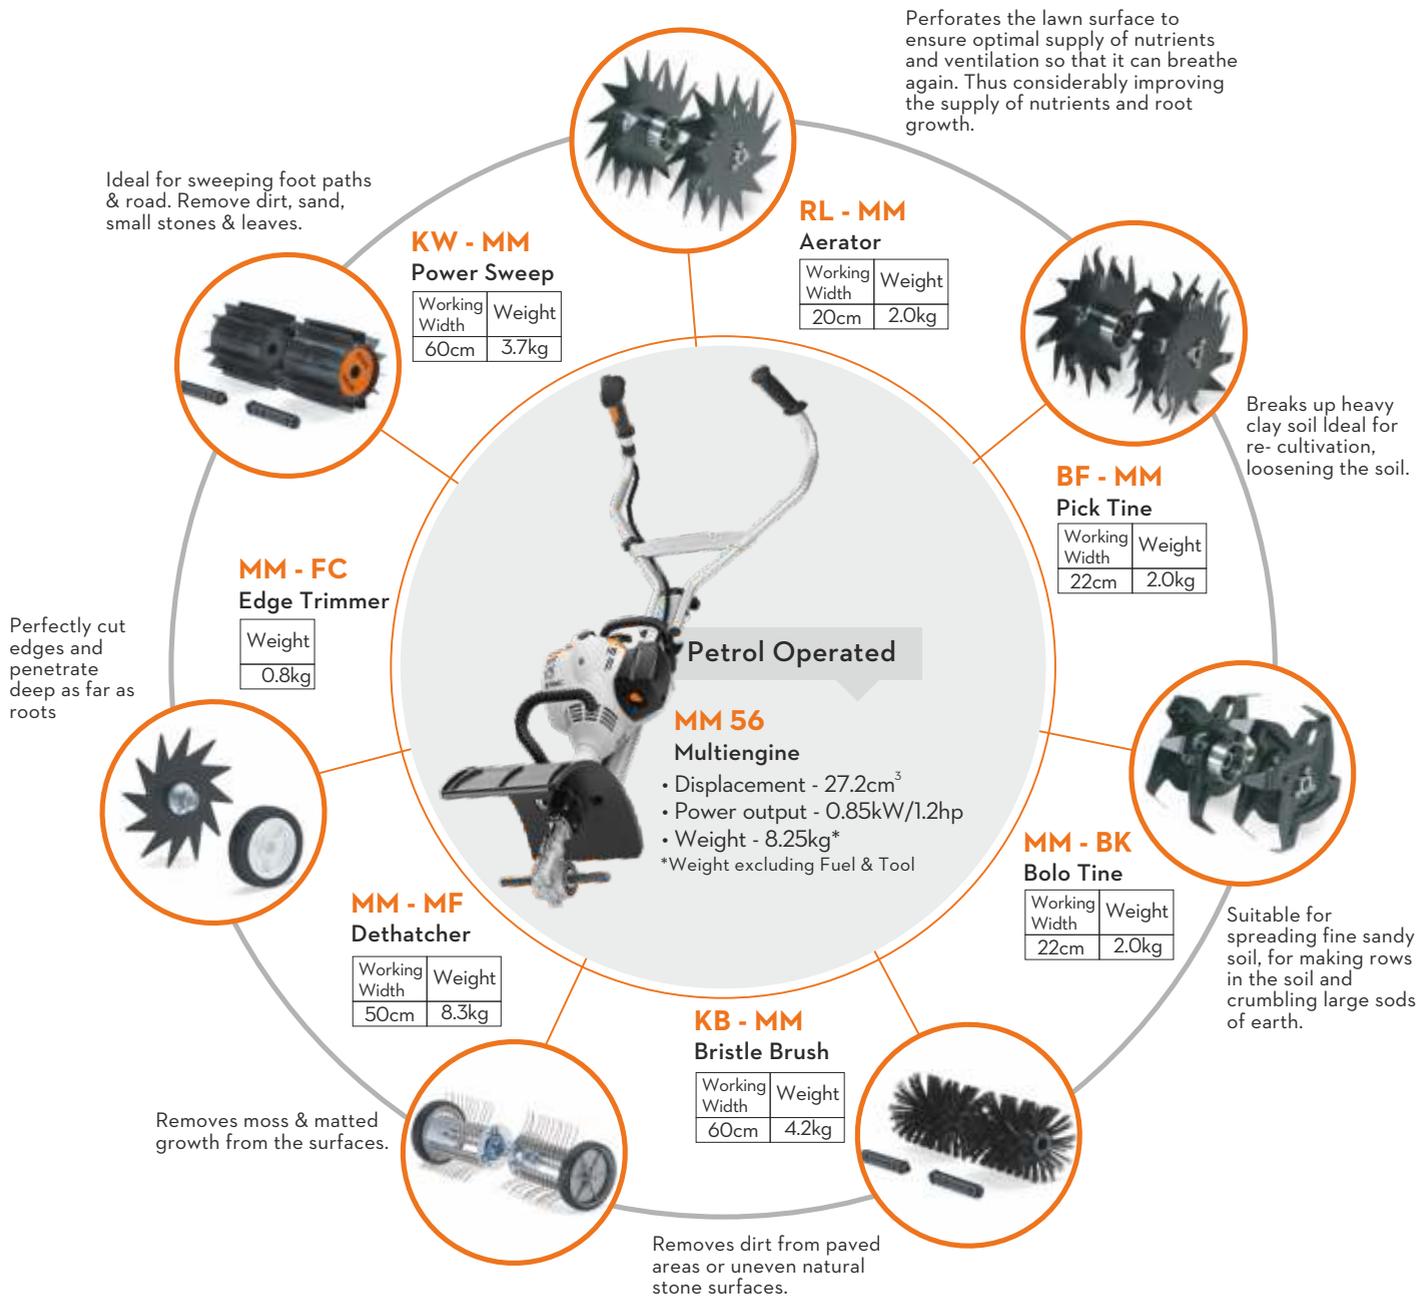

- Displacement - 72cm³
- Weight - 6.5kg
- Power Output - 4.4kW/6.0hp

* Weight without attachments & fuel

MULTISYSTEM

Powerful Multiengine for all Multitools

- Powerful multiengine
- Practical multitools for huge range of tasks
- Switch between tools in no time
- Can be combined with various multitools

SPECIAL HARVESTERS

Palm cutter

PC 70:

The new palm cutters from STIHL make light work of harvesting palm fruit. With a fix working length of 2.12m the PC 70 can effortlessly reach bunches of fruit up to the height of 3m.

PC 75:

Has an even greater range. Thanks to its telescopic shaft, it offers a variable working length of between 2.70m and 3.90m, giving you an over all reach up to 5.50m.

SICKLE

CHISEL

Petrol Operated

PC 70

- Displacement - 25.4cm³
- Power output - 0.95kW/1.3hp
- Weight - 6.2kg*
- Reach from ground - 3meter
- Standard length - 212cm
- Cutting attachment - Chisel / Sickle

*Weight excluding fuel, fully assembled

PC 75

- Displacement - 25.4cm³
- Power output - 0.95kW/1.3hp
- Weight - 8.4kg*
- Reach from ground - 5.5meter
- Standard length - 290cm/ 390cm
- Cutting attachment - Chisel / Sickle

*Weight excluding fuel, fully assembled

VACUUM SHREDDERS

Shredding solutions

Vacuum shredder application : extremely powerful suction. Ideal for cleaning large areas. Blower function comes as standard with STIHL anti-vibration system for extra comfort plus blower tube with round and flat nozzles.

Petrol Operated

SH 86

- Displacement - 27.2cm³
- Weight - 5.6kg* (Inc. Accessories)
- Sound pressure level - 93dB(A)
- Sound power level - 106dB(A)
- Vibration level (L/R) - 2.5/1.9ms²
- Air throughput - 770m³/h
- Vacuum bag volume - 45L

SHE 71

- Rated Voltage - 230V
- Power Output - 1.1kW
- Weight - 4.1kg* (Inc. Accessories)
- Sound pressure level - 85dB(A)
- Sound power level - 101dB(A)
- Vibration level (L/R) - 1.2/0.8ms²
- Air throughput - 580m³/h
- Vacuum bag volume - 45L

SHE 81

- Rated voltage - 230V
- Power output - 1.4kW
- Weight - 4.5kg* (Inc. Accessories)
- Sound pressure level - 88dB(A)
- Sound power Level - 103dB(A)
- Vibration level (L/R) - 5.6/2.6ms²
- Air throughput - 650m³/h
- Vacuum bag volume - 45L

Electric Operated

Cleaning Set

For cleaning dirt and leaves. Approx. 3m long blower tube

CUT-OFF SAWS

- For building, civil engineering, and road construction, equipment rental companies and professions and landscaping
- Petrol driven tools for cutting concrete stone, asphalt, structural steel and pipes
- Cordless power tools for cutting flooring panels, tiles, bricks

Petrol Operated

TS 420

- Displacement - 66.7cm³
- Weight - 9.6kg
- Power Output - 3.2kW/4.4hp
- Cutting Wheel Dia - 300/350mm
- Cutting Depth - 100/125mm

Compact and robust, the TS 420. Extremely low vibration levels (3.9m/s²). High-performance engine with stratified charge system. Compact design and optimized balance for excellent cutting and guide characteristics. Can be handheld or used with the FW 20 cart.

* Weight without attachments & fuel

TS 800

- Displacement - 98.5cm³
- Weight - 12.7kg
- Power Output - 5.0kW/6.8hp
- Cutting Wheel Dia - 300/350/400mm
- Cutting Depth - 100/125/145mm

Includes a long-life air filter system with cyclone air routing. Ergonomic design with optimized handling positions. Easy to start plus, compensator and decompression valve. Water attachment and composite cutting wheel come as standard. Can be operated by hand or mounted on an FW 20 cart.

* Weight without attachments & fuel
